Hi Mary,

We had a meeting on the appraisal idea. General support but I also received some questions. There was a general assumption that an appraisal would show a low market value with the current conditions, potentially even with the buildings removed. Can we perhaps visit again briefly? One question that I got from our real estate manager was how the appraisal would be used in the discussion with the owner. What does a high or low appraised value mean? These

questions are pretty typical when we are reviewing sale of City owned land, where the land sale proceeds may be utilized in a development agreement, provided back to the purchaser as an economic development grant.

Let me know what may work, thanks!

Hi Mary, I've gotten the voicemails on the appraisal question. I think we can support doing that but is there a time that you and I might successfully connect tomorrow or Wednesday? I'm due to be at a conference most of the day tomorrow but may be able to work in a call between sessions.
